

SUSTAINABILITY, ENVIRONMENT & ENERGY

Purpose and Scope

This is the Environmental Policy Statement for Aston Martin Aramco Cognizant F1 (AMF1). It is owned by the Group Chief Executive Officer (CEO) and sets out our commitment to environmental, sustainability and energy management and improvement across all our operations.

Our Vision

Make A Mark is our commitment to driving positive progress through the influence of our team and sport. We are committed to being environmentally and socially accountable, consistently basing our actions on principles to protect our planet, making a mark on the communities where we work and creating a culture where diversity equality and inclusivity thrive.

Our Commitment

- We take our environmental responsibilities very seriously and strive to minimise the impact of our activities.
- We are committed to pollution prevention and protection of the environment in all our activities.
- We are committed to fulfilling compliance obligations related to the environment, sustainability and energy performance.

Our Ambition

AMF1 is adopting an ambitious environmental, sustainability and energy strategy for 2024 and beyond with four specific aims:

- Promote energy conservation through increased use of renewable technology and energy-efficient products.
- Optimise resource management through sustainable procurement and the circular economy.
- Reduce our carbon footprint by implementing sustainable innovations in our operations.
- Improve the flora and fauna of our campus grounds to boost biodiversity.

We will achieve these aims, working together with our people and partners, through the following actions:

- Working in co-operation with our sponsors, suppliers, the FIA and Formula One World Championship Limited.
- Accelerating the development and implementation of environmental solutions.

Responsibilities

Our Group CEO is ultimately responsible for environmental management at AMF1 and is supported by the Chief People Officer who reports directly to the Group CEO and is a member of the leadership team.

The Group CEO holds the Chief People Officer and Head of Sustainability, Health and Safety accountable for all aspects of environmental, sustainability and energy management in the business.

The Head of Sustainability, Health and Safety manages a team of professionals to ensure that compliance obligations are met, and environmental ambitions are championed.

We include specific responsibilities for our people in their role descriptions and we set out our general responsibilities in our Environmental Standards.

We consider compliance with this policy is the responsibility of all individuals who take part in the company's operations and activities.

Our Approach

- We will use this policy as a framework alongside our Make A Mark strategy to help us improve our performance and deliver our ambition.
- We have a management system for the environment which works in accordance with the principles of ISO 14001 and is integrated with our systems for managing health & safety, energy and quality where possible.
- We purchase energy-efficient products and services, and design for energy performance improvement.
- We use a risk-based approach to address the requirements of the business both internally and externally.
- We give our staff the right information, advice and training so they are fully aware of their responsibilities and are competent to undertake their activities.
- We have channels of communication and promote activities to encourage, engage and involve all employees and stakeholders to contribute to improvements in our environmental performance.
- We measure and report environmental performance on a regular, consistent, and meaningful basis for continual improvement.
- We provide sufficient resources to implement this policy in full.

Review

This policy shall be reviewed on an annual basis and as and when necessary to reflect changes in relevant legislation.
